Education

Cochin University of Science and Technology (CUSAT) **Expected 2029**
B.Tech in Information Technology, School of Engineering | CGPA: 8.86 *Kochi, Kerala*

Experience

MathWorks **Summer 2026**
Summer Intern – MATLAB & Simulink *Remote*

- Completed the MATLAB and Simulink online internship, building proficiency in MATLAB programming, data analysis and visualization.
- Applied course concepts through hands-on exercises and assignments to strengthen problem-solving and computational thinking.

Solve4Public Lab (Ignite Foundation × TinkerHub) **Summer 2026**
Selected Participant – Civic Tech *Kerala*

- Selected as one of 20 participants from 200+ applicants across Kerala for a civic-tech program conducted by Ignite Foundation in collaboration with TinkerHub.
- Built K-Bot, a working WhatsApp-based AI assistant for navigating Kerala government services, with a teammate.

Projects

Argus – QR Fraud Screening | *Python, FastAPI, OpenCV, OCR* **HackVerse, Oct 2026**

- Built Python/FastAPI backend components for a UPI payment-QR fraud-screening prototype in a 24-hour hackathon with a team of four, covering QR decoding, UPI payload parsing and VPA validation.
- Implemented payee-name matching with `SequenceMatcher` and rule-based risk scoring to return Safe, Suspicious or Danger verdicts with plain-language explanations.
- Integrated verification logic with OpenCV image-tampering heuristics using Git feature branches and an integration branch.

Greenline – Carbon-Aware AI Routing | *Python, Gemini SDK, REST API* **HackHer, Jan 2026**

- Led a team in an 18-hour hackathon to build a prototype that routes prompts between AI models using live grid carbon-intensity data; shortlisted among the final nine teams.
- Integrated the National Grid Carbon Intensity API with the Google Gemini SDK, with a Python CLI and a lightweight HTML/CSS interface.

K-Bot – Kerala Government Services Assistant | *WhatsApp, Botpress, RAG* **Solve4Public Lab, May 2026**

- Built a working WhatsApp prototype of a multilingual (Malayalam and English) AI assistant, using retrieval-augmented generation over official public-service resources.
- Designed conversational workflows that guide users to the relevant service portal and explain application steps and required documents.

Technical Skills

Languages: Python, C, C++, SQL, JavaScript, MATLAB
Web/Backend: HTML, CSS, React, Next.js, Node.js, FastAPI, Tailwind CSS
AI & Tools: Google Gemini SDK, Generative AI APIs, RAG, Botpress, OpenCV, OCR, Simulink, Git, GitHub, VS Code

Leadership / Extracurricular

TinkerHub Campus Community, SOE CUSAT **Aug 2026 – Present**
Women in Tech (WIT) Lead *Kochi, Kerala*

- Lead the WIT initiative to make tech spaces more welcoming and accessible for women students on campus.
- Encourage first-time builders and promote peer learning through community events and activities.

Students Association of Information Technology (SAIT) **Oct 2026 – Present**
Design Team Member *CUSAT, Kochi*

- Part of the design team for the IT students' association, creating visual and UI/UX designs for association activities and events.

Ektara Band **2025 – Present**
Vocalist & Keyboardist *Kochi, Kerala*

- Member of the first girls-only band at CUSAT, performing as a vocalist and keyboard player.
- Trained in Trinity Western Vocals up to Grade 6, Keyboard up to Grade 2.
